

QUALITY POLICY

The company policy of Mastercert LLP is to provide professional services to its clients resulting from safety, environmental requirements, market and quality requirements from legal specifications or country specific regulation or in the free market segment.

Mastercert LLP shall agree to provide such services with professionally trained & qualified personnel, with suitable resources at the earliest time possible.

Mastercert is committed to providing and maintaining certification/inspection services that are discrete, non-discriminatory, ethical, professional, and focused to legal and other implied or expressed requirements for the benefit of all interested parties.

The management of Mastercert ensures that the Quality policy is understood, implemented and maintained at all levels of the organization. Objectives for quality are documented and reviewed periodically at management review meetings for effectiveness.
